THE PLAN OF THE ENEMY.

The northern journals, in discussing the plan of their generals, give us intimation of on probable feature in their programme, which, is through the mountainous region of this State, some fifty or sixty civilians. and the other the Weldon and Wilmington, run-

rendezvoused on the coast of North Carolina, partment, with a reported force for land operations of about thirty thousand men, which may be increased at any time by the addition of twenty-five thousand more under SHERMAN and DUPONT, now at Port Royal. It is evidently the design of this fleet, if it does anything at all, to move on Newbern, Washington, or Elizabethtown, with the view of their capture, and the subsequent establishment of a base of operations against the interior portion of North Carolina.

In the meanwhile, strenuous efforts may be This is known to have long been a favorite plan num for each patient actually admitted. of the enemy since the commencement of the war, and the importance of the movement has accomplishing such an expedition, where every mountain pass would be made a Thermopylee, the late success of the enemy near Somerset may possibly attract his attention to its supposed feasibility, while he still exults with exuberant ecstacy over his triumph. Indeed, we are already forcements to THOMAS and SCHOEPF since the distributed among them from the relief fund. shows a disposition to follow up that victory by what he can do therewith: pressing forward into Tennessee as speedily as possible, and giving battle to CRITTENDEN's retired army before it can be reinforced in sufficient numbers to insure successful resistance to an
